INTELIQUENT ANNOUNCES NEW PEAK IN ON-NET FOOTPRINT

Plymouth, MN – November 27, 2018 – Inteliquent, Inc., a premier network-based communications enabler focused on delivering high quality voice and messaging services, announced today that it has significantly increased its on-net local voice footprint to over 9,400 rate centers. With this increase, service provider customers can now reach over 90% of U.S. households with an on-net connection, which results in a better LNP experience, greater control of services and higher quality calls.

“We pride ourselves on enabling our customers to expand their local service reach quickly and cost effectively, so that they can better serve their end user subscribers,” said Surendra Saboo, Inteliquent’s President. “Providing the highest-quality voice service has always been the core of what Inteliquent has set out to do, and by adding over 1,000 on-net rate centers in the last 12 months, shows our continuous dedication to this mission.”

Inteliquent has robust and redundant direct network connections to virtually all of the nation’s CLECs, wireless and cable providers. This allows it to provide the most reliable outbound and inbound voice service with superior quality for UC voice, OTT voice, conferencing, contact center, call analytics and any other voice application. Benefiting from Inteliquent’s national network, geo-redundant IP connections, powerful API, industry leading portal and newly deployed Robocalling mitigation services, Inteliquent customers have simplified their acquisition and management of telephone numbers, voice, and messaging services.
