Inteliquent Unveils SIP IQ, the Latest Addition to its Omni IQ Service Line

New Solution Further Expands the Power and Reliability of Inteliquent's Network to Next Generation Communications Providers

CHICAGO, Nov. 01, 2016 (GLOBE NEWSWIRE) -- Inteliquent, Inc. (Nasdaq:IQNT), a premier interconnection partner for communications service providers of all types, today announced the launch of SIP IQ at the 2016 BC Summit in Palm Springs, Calif. SIP IQ is the latest addition to Omni IQ, Inteliquent's Communications Platform as a Service (CPaaS) solution for next generation communication service providers. It provides solutions integrators, such as unified communications and customer engagement platform providers, with the ability to quickly and easily add analytical and call processing capabilities into their applications through Omni IQ's self-service web portal and API.

"We are committed to providing next-gen communications providers with access to our high quality network, and our SIP IQ solution marks another step forward in this endeavor," said Brett Scorza, Inteliquent's CIO and EVP of Next Generation Services. "We worked directly with our customers to develop the SIP IQ solution as an easy-to-use platform that they can use to expand the services they provide for their customers."

In addition to customer input, Inteliquent's recent acquisition of technology from Shopety, Inc., a developer of communications software and next-gen switching capabilities, played a key role in the creation of SIP IQ. Inteliquent used Shopety's technology to add the analytical and call processing capabilities. By building upon industry standard Session Initiation Protocol (SIP) trunk groups, the SIP IQ solution provides a powerful, more intelligent connection for solutions integrators with their customers.

Inteliquent representatives will be onsite at the 2016 BC Summit at La Quinta Hotel and Resort to discuss how Omni IQ and SIP IQ are shaping the new communications ecosystem. Covering unified communications and collaboration applications, technologies, trends and challenges, the BC Summit provides attendees the opportunity to learn actionable best practices, strategies and tactics from leading vendors, unified communications pioneers and thought leaders. Additional information about the BC Summit is available at www.ucstrategies.com/bcsummit2016.

About Inteliquent

Inteliquent is a premier interconnection partner for communication service providers of all types. As the nation's highest quality provider of voice and messaging interconnection services, Inteliquent is used by nearly all national and regional wireless carriers, cable companies and CLECs in the markets it serves, and its network carries approximately 21 billion minutes of traffic per month. With the recent launch of its Omni IQ solution, Inteliquent is now also fully dedicated to supporting the growing market of next generation service providers. For more information about Inteliquent, visit www.inteliquent.com and follow the company on Twitter [@Inteliquent](https://twitter.com/Inteliquent).

Cautionary Statement Regarding Forward-Looking Statements

This press release contains "forward-looking statements" that involve substantial risks and uncertainties. All statements, other than statements of historical fact, included in this press release are forward-looking statements. The words "anticipates," "believes," "efforts," "expects," "estimates," "projects," "proposed," "plans," "intends," "may," "will," "would," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. Factors that might cause such differences include, but are not limited to: our ability to market the Omni IQ voice and messaging services (including SIP IQ), including the risk that the service will not meet our targets for revenue or profitability, including EBITDA and Adjusted EBITDA; the risks associated with any receiving carrier's refusal to accept terminating messages or other problems preventing us from providing messaging services; the risk that our costs to provide the Omni IQ voice and messaging services (including SIP IQ) will be higher than we expect; the effects of competition and downward pricing pressure resulting from such competition; and other important factors included in our reports filed with the Securities and Exchange Commission, particularly in the "Risk Factors" section of our Annual Report on Form 10-K for the period ended December 31, 2015, as such Risk Factors may be updated from time to time in subsequent reports. Furthermore, such forward-looking statements speak only as of the date of this press release. We

undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.
