

COVER PAGE FOR SUBMITTING L.E.A. INFORMATION REQUESTS TO INTELIGUENT

To facilitate the timely and orderly receipt, processing, and tracking of Information Requests (as defined in our Guidelines) seeking customer-related information concerning telephone numbers, **a completed cover page must accompany each Information Request submitted.**

****COMPLIANCE DATE FOR INFORMATION REQUEST:** _____
(Specify the date compliance is due, per the Information Request, or if unstated, per law. Include this date **also in the subject line** of your submitting email [making it visible pending initial review]. Where unspecified, our system establishes a default date of 20 business days.)

****TARGET NUMBER(S):** list all, hyphenated in NPA-NXX-XXXX format. If you have **ten or more target numbers**, include this list **ONLY** in the body of your transmitting email instead. Multiple number requests **will not be** processed without this list. List numbers here:

****REQUESTS PURSUANT TO AN ESTABLISHED WIRETAP / INTERCEPT:** if seeking information about a target number pursuant to a court order or warrant that established a pen register, trap and trace, or wiretap/intercept arrangement on another telephone number:

**Initial to affirm that the target number(s) either called to or was/were called by the number(s) subject to the wiretap/intercept: _____

**Initial to affirm that such call(s) occurred during the interval specified in the order/warrant (provide a copy of order/warrant): _____

**Initial to affirm that only customer-identifying information is sought pursuant to the order/warrant about the target number(s): _____

(Inteliquent is generally **not** a primary source of CDRs, see p. 4 of our LEA guidelines – you will want CDRs from our customers)

Specify the order/warrant section(s) requiring provision of the requested information (by page, paragraph, etc.**): _____

****REQUESTS TO INTELIGUENT TO ESTABLISH A WIRETAP / INTERCEPT:** As a wholesale provider, Inteliquent is generally not an optimal point for such arrangements (i.e., we typically do not carry all traffic relating to a number across our network; you will want your probe established with our wholesale customer instead). See "PEN REGISTER..." on page 4 of our LEA guidelines. If, after reviewing our guidelines, you believe that Inteliquent is the appropriate location for your probe, **please first contact Penny Stanley or Scott Kellogg. Please do not submit a wiretap / intercept order without first contacting us.**

****AREA CODE 559 / 661 TARGET NUMBERS:** provide on a **per call** basis: (1) calling number, (2) called number, including potential other numbers (e.g., a call forwarding arrangement, or a toll-free & "point to" number pair); (3) date/time/time zone of call; and (4) call duration.
